

Questions In The Air

verse 1: It started on the day of Earth and Man
What God created with a Word began
A search of love, hate, peace and strife
We want to know the meaning of this life

Chorus: Why am I here and how long can I stay
Is this all there is, just now and today?
Where are we going and when will we get there
Please help me find some answers to these questions in the air

verse 2: So we search for the meaning of frail life
And we fill our hearts with troubled trinkets and tripe
Our call to arms is "More, give me more!"
Yet more's not enough, and soon becomes a bore

Chorus: Why am I here and how long can I stay
Is this all there is, just now and today?
Where are we going and when will we get there
Please help me find some answers to these questions in the air

verse 3: Solomon had women, power and gold
Yet he's the one who said when he was old
"Meaningless is life if wealth and pleasure
Are what you chase and all you treasure"

Refrain: "The meaning of life is found in loving your wife
Enjoy your work, let no one be hurt
By the words that you say, and take time to play
So when your life is over and you're resting in that clover
You'll know your search for meaning made your life worth living"

Chorus: Why am I here and how long can I stay
Is this all there is, just now and today?
Where are we going and when will we get there
Please help me find some answers to these questions in the air
Lord, show me the answers to these questions in the air
